

RESULTS FROM THE 8th OCEANIA FLY FISHING CHAMPIONSHIPS 2011

“From what I’ve heard it was a fantastic competition and I think enjoyed by all. Fishing was good especially during practice days, but as probably many of you know conditions can get tough there and the lakes proved difficult at competition time, as they often do”, says the organizers.

I personally can’t deny, I like the venues in Australia. The jabbey fishing – uh, that’s awesome. My own participation in competitions Down Under still is cherished memories although many years and a lot of water have passed by. I’m so happy to have had the fortune to fish these waters and still have friendly contacts there. Hope to return!

Anyway here are some results I received from my friends Down Under from the 8th Oceania Fly Fishing Championships in Adaminaby, New South Wales, Australia 8-14 November 2011.

In the 8th Oceania Fly Fishing Championships, the team Captain of the Australian WFFC team that competed in [Sweden 2001](#), Craig Colman won. Actually I had the privilege to aid his World Fly Fishing team in preparing for the competitions then. They were a very nice

bunch of guys to share a lot of fun with. I still have loads of very happy memories, from preparations, fishing, and their friendly camaraderie. Congrats also to Craig!

/Harry
